NANYANG TECHNOLOGICAL UNIVERSITY SINGAPORE

DELL Technologies

DON'T JUST USE AI. ENGINEER WITH IT.

Learn & Apply AI Engineering, Receive Digital Badge & Win Prizes!

1 AI Engineering Intro

3 Sep, Thu, 1.30pm LT1A

Build beyond the model:

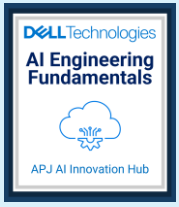

- LLMs, prompting & pre-trained models
- RAG, agents, & model adaptation
- Evaluation, deployment, & scalability

2 Wrap up & Agentic Software Engineering

24 Sep, Thu, 1.30pm LT1A

Spec-driven development:

- 4-phase process: Discuss → Specify → Delegate → Evaluate
- Quiz for digital badges

Build your profile with an AI Engineering digital badge

Digital badges are available to students through the guest lecture series — achievements you can add to your LinkedIn, resume, or learning portfolio.

COURSE PROJECT COMPETITION

Turn what you learn into an advantage.

Top 3 project teams will be invited to Dell's office to present their project to a panel of judges, which includes an "Effective Use of AI" criteria.

PRIZES

Alienware Peripherals
